

Veterinary Update:

Best practices for feeding discard milk, Utah agritourism, and trichomoniasis

Presentations:

Dr. David Wilson (Dairy Extension Veterinarian)

- *Pasteurization and Safe Feeding of Discard Milk to Calves and Seasonal Temperature Effects*

Dr. Kerry Rood (Extension Veterinarian)

- *Zoonotic Disease Control Practices of Utah Agritourism Operations*

Dr. Dean Taylor (Utah State Veterinarian)

- *Modifications to the Trichomoniasis Regulations Following the 2020 Utah Outbreak*

**Thursday
August 13
6-7:30 PM**

Zoom Conference

The event is free.
Pre-registration is
required to obtain
the conference link.

Attendees will gain a better understanding of safely feeding waste milk to calves, some of the gaps in reducing zoonotic disease risk on Utah agritourism operations, and the 2020 Utah trichomoniasis outbreak with suggested changes to rule. Veterinarians will receive 1.5 hours of CE by attending
